

Arci Servizio Civile Vicenza

Call for a volunteer

July 2019 - June 2020

Vicenza, Italy

About us

We are a non-profit organization born with the aim of promoting the values of **peace**, **non-violence** and National Civil Service as a form of education to **active citizenship**. We create and coordinate projects in many different fields: social care for elderly and people with disabilities, education for children and youngsters, information points addressed to youngsters and families, care and protection of artistic and cultural heritage in museums and libraries, environment and sustainability.

During the year we also organize training courses (sewing, artistic carpentry, theatre, dance, etc), movie screenings, exhibitions, seminars and small concerts in **Porto Burci**, an **environmental and cultural center** we manage together with other 6 organizations.

We are located in Vicenza, a city of about 120 000 inhabitants in the Northern East Italian region of Veneto. Since 1994 it is enlisted in UNESCO world heritage sites. Crossed by the rivers Retrone and Bacchiglione and with a lake in the surroundings, Vicenza's landscape is mostly plain and partly hilly. The urban centre is equally distant from the sea and the mountains, which can be reached in around one hour trip. The most famous city nearby is Venice, also reachable in the same time span.

Project description

This project is about finding new and original ways to involve young people in local and international volunteering opportunities. To achieve this goal, we're looking for a **creative volunteer** who is ready to experiment with different media: flyers, pictures, video, social networks, web radio (Radio Zappa), public meetings and whatever means will be considered suitable to reach the local young people. The activities will mainly take place in Porto Burci and could be divided into:

- reception and welcoming at the center, providing information, planning the venue calendar, assisting in the usage of technical equipment
- promotion of Arci Servizio Civile and Radio Zappa: social media, website, flyers, etc. (on- and off-line communication)

Arci Servizio Civile Vicenza

- creation of video reporting/promotional videos for the National Civil Service, Erasmus+ and volunteering projects
- production and editing of the programs of Radio Zappa
- Erasmus+ Lab: promotion, public meetings, and information about volunteering projects and Erasmus+
- Personal project: organization of events/classes/seminars/etc. of choice, with the help of our staff

Accommodation, food and transport arrangements

The accommodation will be a private room in an apartment shared with other young people. It is in the surroundings of the city centre, in a position which is well connected by public transport. We provide a pass for using busses and/or a bike. The volunteer will have the kitchen at disposal, so the meals can be arranged independently by using the food allowance of €150 per month.

Volunteer profile

We are looking for participants available to mingle with people of different age, culture and background, who are motivated for this experience and who are interested in media and in this project. Candidates who are already involved in the activities of the sending organization will be preferred, so that the volunteer and the staff can meet more easily during the application and the pre-departure, as well as contributing with what has been learned upon return.
